

Dave's Butter Pecan Doughnuts

- 1 Dozen chocolate cake doughnuts
- 1 1.5 quart container of butter pecan ice cream (I use Breyer's)
- 1 Jar of hot fudge topping (I use Hersey's)
- 1 Jar of hot caramel topping (I use Hersey's)

Place one doughnut in a bowl and warm it up in the microwave (15-30 seconds). Fill the doughnut hole with heated hot fudge topping covering the upper surface of the doughnut with topping also. Place a large scoop of butter pecan ice cream on top of the doughnut. Dribble a liberal amount of heated caramel topping over the ice cream. Repeat as necessary.
