

## Lady

You came to me without intent  
Gave to me what you could  
Yet you were in need yourself  
Lady you were young but wise  
Straight forward and uncomplicated  
Beautiful yet full of understanding  
I know not from whence you came  
Nor do I know where you've gone  
But I'm thankful that you were here  
Lady you were a true friend  
I have never known another like you  
Neither before or since  
Our paths may never again cross  
The journey we took was brief  
I wish you the best life has.
