

## True Love

When I "am at peace

Be at ease

When I am in conflict

Be calm

When I am distressed

Be comforting

When I am helpless

Be strong

When I come apart

Be centered

When I reach out

Be near

When I pull away

Be my friend

When I am loving

Be joyful

When I am hateful

Be compassionate

When I soar high

Be a beacon

When I fall down

Be a cushion

When I lose my direction

Be a guide

If you love me deeply

Be steady

A tree with deep roots

Weathers well

Raging winds

Gentle breezes

If you always mirror

Reflect my errors

How can you hope

To teach me of love

Love touched by wisdom

Like an arrow

Whose path is true

Even in darkness

Finds its target

Pierces the heart.
