

## **The Ground of All Being**

Source Consciousness  
untouched by space/time.  
The ground of beingness,  
its shadow - emptiness.  
Emptiness exuding  
pure potential.  
The Will of Source  
manifests frequencies.  
Exciting potential  
expressed as flux.  
Points of blinking light  
arising and subsiding.  
The light gathers,  
a glowing cloud emerges.  
Source Consciousness intends;  
forms emerge from the cloud.  
Ordered forms evolve,  
take on appearances.  
Tentacles of Source inhabit  
living forms as consciousness.  
Forms gradually decay;  
entropy grows and spreads.  
Forms are set free,  
once again, potential.  
Potential subsiding into and  
arising from Emptiness.  
Consciousness' tether -  
a path home to Source.  
Returning with experience  
gathered by living forms.  
The Ground of All Being  
enriched by experience.  
Experience out of Emptiness,  
A cycle repeating endlessly.
